Dear Ms. Korioth,

In response to the public notice and invitation to comment on the proposed policies and procedures for the RI Municipal Infrastructure Grant Program (RIGL 41-11.4), HousingWorks RI submits the following recommendation.

We suggest adding the following ranking criteria to Section 1.6, Grant Application and Review, (C) below item # 7 and before item # 8:

- **The estimated number of housing units to be created or preserved in connection with the proposed project**

Thank you for the opportunity to provide comment on the proposed policies and procedures.

Sincerely,
Annette Bourne
