Ms. Korioth,

In response to the public notice and invitation to comment on the proposed policies and procedures for the RI Municipal Infrastructure Grant Program, Grow Smart RI submits the following recommendation.

We suggest adding the following ranking criteria to Section 1.6, Grant Application and Review, (C) below item # 7 and before item # 8:

- **The estimated number of housing units to be created or preserved in connection with the proposed project**

Thank you for the opportunity to provide comment on the proposed policies and procedures.

Respectfully,

John Flaherty
