

Concise Explanatory Statement

Rhode Island Government Register

In accordance with the Administrative Procedures Act, R.I. Gen. Laws § 42-35-2.6, following is a concise explanatory statement:

AGENCY: Rhode Island Department of Business Regulation

DIVISION: Building Code Commission

RULE IDENTIFIER: 510-RICR-00-00-14

REGULATION TITLE: Rhode Island Swimming Pool and Spa Code

RULEMAKING ACTION: Full rulemaking, Amendment

REASON FOR RULEMAKING:

The Rhode Island State Building Code (“SBC”) is based on the International Code Council (“ICC”) family of model codes. Because the ICC codes are amended every three years, the SBC must undergo revisions to the SBC on a periodic basis to ensure that the SBC is up to date with national and industry standards.

RISBC-14 State Swimming Pool and Spa sets forth Rhode Island amendments to the International Swimming Pool and Spa Code (ISPSC), 2018 edition, and incorporates the ISPSC 2018 into the Rhode Island State Building Code.

CHANGES TO TEXT OF THE RULE:

- Numerous punctuation and grammatical changes have been made throughout that do not result in substantive changes to the regulation.
- All references to the ISPSC 2015 have been changed to the 2018 edition. Some ISPSC section numbers have been amended to conform to ISPSC 2018.
- Throughout the regulation: updated internal cross-references with new RICR citations and references to the 2021 version for all Parts in Title 510 being amended this year.
- Chapter 1 Administration: Adds that the Provisions of the Rhode Island Swimming Pool and Spa Code SBC-14 (Part 14 of this Subchapter) shall apply whenever the International Swimming Pool and Spa Code is referenced.

PUBLIC COMMENT

- The American Institute of Architects provided a comment in support of adopting the International Swimming Pool and Spa Code 2018 edition.
- No other comments were received

REGULATORY ANALYSIS:

Building codes have a significant impact on the state. The following economic analysis will explain the process of regulatory development and the potential impacts that these regulations will have on Rhode Islanders. The construction standards in the state building codes impacts include:

Safety, health, livability, and environmental impacts related to increased protective requirements;

Building quality and resiliency impacts related to higher quality construction and energy savings requirements;

Construction cost impacts related to the cost of construction and compliance with the state building code requirements; and,

Procedural and administrative impacts related to the management and application of the code requirements.

In the development of the proposed adoption consideration was given to: (1) alternative approaches; (2) overlap or duplication with other statutory and regulatory provisions; and (3) significant economic impact on small business. No alternative approach, duplication, or overlap was identified based upon available information.
