GENERAL

Delete all references to IEC and substitute Rhode Island Electrical Code SBC-5-2008.

Delete all reference to any other International Code (IBC, IRC, IMC, etc.) and refer to appropriate SBC regulations. (See Amendment 2701.6 of SBC-1-2007.

NFPA 70-08 may also be referenced as NEC 08 and are one and the same document.

ARTICLE 90

90.1 Add the following to 90.1.

- E) The installation of all work shall be accomplished by persons licensed by the State of Rhode Island, Department of Labor and Training, Division of Professional Regulation of Electricians, Title 5, Chapter 6, and Telecommunications Chapter 5-70 of the General Laws of the State of Rhode Island.

90.4 Delete 90.4 and substitute the following:

90.4 Enforcement. This Code is intended to be suitable for mandatory application by governmental bodies that exercise legal jurisdiction over electrical installations and for use by insurance inspectors. The Committee shall have the responsibility for deciding upon the approval of New Materials and Methods of Construction in accordance with SBC-12. The Commissioner shall have the responsibility to issue official interpretations in accordance with SBC-10. The authority having jurisdiction will have the responsibility for granting special permission contemplated in a number of the rules.

The authority having jurisdiction may waive specific requirements in this Code or permit alternate methods where it is assured that equivalent objectives can be achieved by establishing and maintaining effective safety.

This Code may require new products, constructions, or materials that may not yet be available at the time the Code is adopted. In such event, the authority having jurisdiction may permit the use of the products, constructions, or materials that comply with the most recent previous edition of this Code adopted by the jurisdiction.

90.6 Delete 90.6 and substitute the following:

90.6 Formal Interpretations. To promote uniformity of interpretation and application of the provisions of this Code, formal interpretation procedures have been established and are found in the NFPA Regulations Governing Committee Projects.

Formal interpretations issued by the NFPA are advisory in nature and are not binding on the local authority having jurisdiction unless reissued as a formal opinion by the State Building Code Commissioner.

90.10 Add the following new Article 90.10:

90.10 Other Provisions. The provisions of Chapter 27 of SBC-1-2007 are herein incorporated by reference and are considered part of this code. See SBC-1-2007 for any future amendments.

110.2 Add the following new paragraph after the FPN:

Except as modified by the authority enforcing this Code, plans, specifications, schedules and calculations in sufficient detail shall be filed with the authority enforcing this Code, showing the location, and capacity of all lighting facilities, and all electrically operated equipment including power circuits required for all electrical service equipment of the building or structure. Details shall include available fault current at each protective device. Details shall include showing all raceways, cables and or circuiting on plans.

Annexes A, B, C, D and F may be used and are included for informational purpose only.

Annex E refers to construction types in NFPA 220 which do not correlate directly with construction types and hourly ratings specified in SBC-1-2007. Refer any questions to the building code authority having jurisdiction.

Annex G is deleted. See the provisions of RIGL 23-27.3-100 et al for administration and enforcement provisions.
