**Subject:** [EXTERNAL] : Out of state medical

Hello, my name is [REDACTED] and I am a medical marijuana patient. I'm writing this message in fear of the "out-of-state medical cannabis recommendations. A new regulation would require anyone with an out-of-state recommendation or card to also show a second form of ID from the state where the recommendation came when purchasing medicine."

I do not want to see the new requirement for patients with out-of-state recommendations change. This change is harmful to patient access, would cause added expense and delay, and is simply unfair.

I cannot stress how unfair it is. Especially since you can't take it back to that state that the out of state recommendation came from.

Please do not make showing an ID from an out of state, state be a thing.

[REDACTED]  
Buisness Owner

**Subject:** [EXTERNAL] : Public Comment - Proposed Medical Cannabis Regulations

Hello, I am an out of state patient, with family and friends in RI. It is helpful to be able to get my medicine while I am in RI. To carry two forms of identification (said recommendation) just means more fees for me and a cumbersome system to navigate. California does not have such a process and they are successful! Why clog it up with additional beurocracy? Allow people to get their medicine without such hurdles! Thank you for your consideration in advance.

Sincerely,

[REDACTED]

Hello,

My name is [REDACTED] and i have an out of state cannabis card and heard about the news of not letting us purchase if out of state id. This medication is the only thing that helps me with my ptsd without it i cannot work go to public events nothing. Im asking that you please keep the rules as it is with out of state cards. If you have any questions please feel free to respond.

To whom this concerns

Hello im writing to you today in regards to the new rule change on the dispensary's. Please dont change the already in place rules. Having access to this has helped me tremendously, because of having access to this my anxiety and insomnia have improved tremendously. Also it has also allowed me to keep things private in certain areas of my life that I did not want anyone local to know. Please keep this inconsideration when deciding the new rule. Im sure im not the only person in this situation. Thank you for your time.

This is not fair , Rhode Island was dragging the issue out on the whole medical marijuana process, so I went to Massachusetts and had the doctor approve me, I live In Rhode Island. So now I would have to go to another doctor in ri , because you want to change the rules. Not fair!!! Leave it the way it is.

Hi Erica,

What's going on in the state of Rhode Island is absolutely outrageous and ridiculous. Every single person living in the state of Rhode Island uses the California Medical Card but does not reside in the state of California. The medical dispensaries are going to be shutting down because they're going to lose about 90% of their business, and you know what that means for the state of Rhode Island? RHODE ISLAND will also be losing out on MILLIONS of dollars because of this ridiculous plan. Good luck to you because Massachusetts will be gaining millions of dollars because we can simply go to their dispensaries without a medical card. Good luck and have a great day.

Dear Erica,

I have received a recommendation from Canna Care in Seekonk, MA, although I reside in Providence, RI. What would be the steps I would have to take to continue as a patient with the medical marijuana card I currently obtain? If my card will be revoked due to me not being a resident of the recommended state, this would be devastating to my health.

Please advise.

I received my license from CA as that is where I am originally from. I currently work and reside in RI while my family lives at home in San Diego. I spend a good amount of time in both locations however mainly drive and operate business in RI. With this change I would not be able to receive my medicine here, as I see my doctors in CA when I visit my family. Please reconsider this, as I, and I would assume many people, have the same issue with finding a good primary care doctor in RI.  
Thank you for your time.

I DO NOT WANT THE SECOND REQUIREMENT TO PURCHASE CANNABIS IN THE STATE OF RI , THE COST FOR THE LICENSE HERE IS FAR TOO MUCH AND THE COST OF A SECOND ID THERE THE SAME! ESPECIALLY WHEN YOUR JUST CONSUMING AND NOT ATTEMPTING TO GROW! IT IS CRAZY TO EVEN CONSIDER TAKING THIS SORT OF ACTION YOU WILL LOSE OUT AND MASS WILL TAKE ALL THE CASH! THINK ABOUT WHAT YOUR DOING BECAUSE WE BOTH KNOW EVERYONES TRYING TO SAVE , ESPECIALLY NOW AND YOU WILL LOSE OUT ON VERY GOOD BUSINESS.....

**Subject:** [EXTERNAL] : Public Comment - Proposed Medical Cannabis Regulations

I believe that the proposed plan to change the rules forcing out of state medical card holders to show a second form of identification is unfair. I am currently a student here in RI and received my medical card while I lived in California. I do not have a California ID any longer and certainly cannot fly home to obtain one. This law would take away my ability to purchase marijuana and thc products legally forcing myself and others to purchase products on the street. This would be a bad move and will only result in added crime, increased policing and detriment to society. I urge lawmakers to not allow this proposed law to go forward.

I am writing to voice my opinion that I am against this change to the public cannabis law. Requiring me to get another ID from another state would be harmful to my access to cannabis which has been a tremendous help to me. I use it to calm my anxiety and to help me sleep when I cannot sleep because of the pain I have in my feet and legs from working two jobs. Some days I work as much as 16 hours. It is unfair to limit the quick relief I can get and allow me to get restful sleep. I also feel it would be bad for the State of RI who I am sure make quite a bit of income from the sales to patients with out-of-state recommendations. This loss of income to our state is just stupid while taxes, tolls and fees are being raised. Please vote no on this proposed change. Thank you.

Please allow this e-mail to serve as my formal opposition to the proposed new regulation for out-of-state medical cannabis recommendations... making this change would be extremely harmful to patients such as myself. It is completely unnecessary, and would cause added expense and delay to my ability to obtain medicine. Furthermore, it would only serve to force us to cross state lines into Massachusetts where cannabis is recreationally legal... thus taking the tax revenues away from RI. In conclusion, modifying the existing regulation is absolutely pointless and would hurt both patients and the state, so I truly hope the powers that be will reconsider.

Thank you,

To whom it may concern,

I do not want yet ANOTHER requirement for patients with out-of-state recommendations. I believe this change will be nothing but a detriment to patients who's lives are genuinely changed for the better with legal access to one of very few alarmingly capable medicines such as marijuana. The proposed change will do nothing but cause me added expense and delay, and is simply unfair.

I argue any changes that would increase the difficulty or amount of time it takes to gain legal access to medical marijuana will do nothing more than encourage patients like myself to seek other forms of access to the medicine we need. If this change to the current legal process is passed, it will mean that we as patients have been ignored yet again, and our safety and status as law abiding citizens weigh less than the amount of control those responsible for this change have over what we ingest.
