Justification for regulatory change:

Definitions added to comply with federal provisions of the Preventing Sex Trafficking and Strengthening Families Act, P.L. 113–183

1.6 Reporting Child Abuse and Neglect

Any person who has reasonable cause to know or suspect that any child has been abused or neglected, sex trafficked, commercially sexually exploited, human trafficked, or is a victim of sexual abuse by another child, must report that information to the Department’s Child Protective Services (CPS) Hotline within twenty-four (24) hours.

Any person who has reasonable cause to know or suspect that any child has been the victim of sexual abuse by an employee, agent, contractor, or volunteer of an educational program must report that information to the Hotline within twenty-four (24) hours.

Justification for regulatory change:

Language added to comply with federal provisions of the Preventing Sex Trafficking and Strengthening Families Act, P.L. 113–183 and RI State Statute § 40-11-3.3 Duty to report – Sexual abuse of a child in an educational program enacted in 2016

1.7 Criteria for Child Protective Services Investigation

The Department must investigate reports that allege child abuse and/or neglect when reasonable cause to believe that abuse or neglect exists. CA/N reports accepted for investigation must contain the following elements:

1. Allegations of sexual abuse by school personnel; or
2. Allegations of sex trafficking and/or severe forms of trafficking of a child under eighteen (18) or under twenty-one (21) years of age if in Department custody.

For purposes of CA/N reports relating to allegations of sex trafficking and/or severe forms of trafficking, any person (not limited to the parent or other person responsible for the child’s welfare) who is alleged to be responsible for committing or allowing to be committed any act of sex trafficking, commercial sexual exploitation, or human trafficking must be subject to an investigation by the Department to determine if the child is a victim of child abuse or neglect. Any child identified as a victim of sex trafficking or severe forms of trafficking is considered a victim of child abuse and neglect and sexual abuse.

Justification for regulatory change:

- Allegations of sexual abuse by school personnel is mandated by Rhode Island State Statute § 40-11-3.3 Duty to report – Sexual abuse of a child in an educational program enacted in 2016
- Allegations of sex trafficking is mandated by the federal Preventing Sex Trafficking and Strengthening Families Act, P.L. 113–183, Approved September 29, 2014

1.8 Response Priorities

Department staff utilize a standardized screening tool to determine the response priority for each report of child abuse or neglect that is screened in for an investigation. Response priorities delineate the time limit for the Department to process the report and for the initiation of an investigation.

Assigned investigations must commence within the timeframe of the designated response priority. For all response priorities below, the investigation is initiated when the CPI makes contact or attempts to contact any party associated with the investigation.

1. Priority 1 (emergency) Response – The CPS report must be processed for case assignment within thirty (30) minutes (40 minutes) after the call is completed. The CPI must respond to the report within four (4) hours (40 minutes) of the report being received to CPS.
2. Priority 2 (Immediate) Response – The CPS report must be processed for case assignment within two (2) hours (one hour) after the call is completed. The CPI must respond to the report within twelve (12) hours (within shift) of the report being received to CPS.
3. Priority 3 (Routine) Response – The CPS report must be processed for case assignment within four (4) hours (one hour) after the call is completed. The CPI must respond to the report within forty-eight (48) hours (24 hours) of the report being received to CPS.
4. Priority 1 response criteria include:
 - a. Child held by police/physician/nurse practitioner on a forty-eight (48) hour hold for DCYF placement. Previously categorized as a Priority 2 (Immediate) response time, moved to now be a Priority 1 (Emergency) Response time.

Justification for regulatory change:

Response times have been renamed from Emergency, Immediate and Routine to Priority 1, Priority 2, and Priority 3 to align with standardized terms used by the SDM (Structured Decision Making) model.

Response times have been changed to provide more realistic timeframes and to parallel our sister states' investigatory response times.

1.9 Standards for Investigating Child Abuse & Neglect (CA/N) Reports

All efforts are made to complete each investigation within thirty (30) (ten) days. If an extension of the thirty (30) day timeframe for completion of an investigation is necessary, a supervisor and/or administrator may grant an extension request up to fifteen (15) additional days.

Justification for regulatory change:

Timelines have been modified to allow Child Protective Investigators adequate time to complete the investigation in a comprehensive and thorough manner.

1.14 Family Assessment Response

This entire section is new and replaces the Department's previous Information/Referral (I/R) Reports policy: 500.0040.

Justification for regulatory change:

The Department is pleased to announce the development of a Family Assessment Response, a Child Protective Services response to low to moderate risk screened-in reports of child maltreatment that do not meet the statutory criteria for an investigation. The Family Assessment Response will replace the Department's prior categorization of "Information/Referral (I/R)" reports.

The Family Assessment Response, also known as "FAR", provides a comprehensive assessment of child safety, risk of child abuse or neglect, family strengths and need. The FAR is not an investigation, no perpetrator is named and no findings are made.

A family's involvement in the Family Assessment Response is voluntary. The voluntary involvement is critical and opens the door to a partnership between the family and the Department to engage in an assessment of safety, risk, strengths, and needs.

Guiding Principles of a Family Assessment Response

- Low to moderate risk neglect cases are best served through planning that includes parents as partners.
- Families want safety for their children.
- Families can meet their children's needs with supports and resources.
- Families are better able to care for their children when connections to communities are developed and strengthened.
- Communities want children to be safe and cared for.

The Family Assessment Response supports and enhances the Department's vision of increased family engagement, enhances the practice of solution based casework, assessment of family's needs and strengths, delivery of concrete and supportive services and focuses on child safety.

Goals of Family Assessment Response

- Provide early intervention to respond to low to moderate risk allegations with the possibility of preventing future high risk or unsafe situations.
- Increase scope of service delivery to provide services and resources for low to moderate risk families. Opportunity to provide services not based on abuse or neglect, but on family need for sustained and supportive parenting of their children.
- Improve Family-Centered Practice by increasing the involvement of the family in assessment and identification of their strengths and needs, and the development of a plan to address issues relating to risk of abuse or neglect.
- Increase resource identification by reviewing service needs and resource availability for immediate and long-term support outside the scope of abuse and neglect.
- Improve engagement and assessment by moving away from incident-based assessments to a comprehensive assessment of the family dynamics, strengths, issues and needs.

~~Rhode Island Department of Children, Youth and Families~~

~~Policy: 500.0125~~

~~Effective Date: January 22, 1990 — Revised Date: December 9, 2011 — Version: 2~~

~~The Department carefully considers all calls to the Child Abuse Hotline alleging drug and/or alcohol use by a pregnant woman. A call alleging drug and/or alcohol abuse may be received during the pregnancy, after delivery while the newborn is at the hospital or after a newborn is already home. An investigation is conducted if there is a specific allegation of abuse and/or neglect of the newborn and/or other children in the home. If, during the course of the investigation, the preponderance of evidence uncovered indicates that mother used drugs and/or alcohol during pregnancy, an allegation of drug/alcohol abuse is added to the investigation. Such evidence may include positive prenatal drug screen(s), positive toxicology screen on mother or newborn while in the hospital or admission by mother that she used drugs during pregnancy.~~

~~When a woman has tested positive for drugs and/or alcohol during prenatal treatment, there is good cause to test both her and her baby for the presence of drugs immediately after the birth. Babies born with drugs in their systems, as evidenced by a positive toxicology screen at birth or observable withdrawal symptoms, babies born to mothers who admit using drugs during pregnancy or who have been observed ingesting drugs and babies born with fetal alcohol syndrome must be reported to the Child Abuse Hotline. A Report of Examination is completed by the attending physician/nurse practitioner. If the method of use is known, such information is reported to the Department. All such reports are investigated by the Department.~~

~~If an investigation is founded and to ensure that these babies and their families are provided with necessary intervention, treatment and services, the assigned Child Protective Investigator (CPI) consults his/her supervisor and DCYF Legal Counsel as to the advisability of requesting an Order of Detention, Ex Parte, or a Straight Petition. Whether or not a Straight Petition is filed, the assigned Child Protective Investigator (CPI) refers the family to community services as appropriate.~~
