TITLE 214 - DEPARTMENT OF CHILDREN, YOUTH, AND FAMILY

CHAPTER 40 - LICENSING

SUBCHAPTER 00 - NA

Part 6 - Mental Health Emergency Service Interventions for Children, Youth and Families
Regulations for ~~Certification-Licensure~~

6.1 GENERAL PROVISIONS

A. Purpose

1. The purpose of these regulations is to comply with ~~R.I. Gen. Laws § 40.1-5-6 R.I. Gen. Laws § 40.15-6~~, which requires any child who is under the age of eighteen whose health insurance is publicly funded to have an emergency service intervention by a provider licensed by the Department of Children Youth and Families (the Department) as a ~~condition-prerequisite~~ for admission to an inpatient psychiatric facility. ~~These regulations set forth the standards for certifying providers and include standards for child and family competent Clinicians.~~
2. In addition, ~~these regulations implement provisions of R.I. Gen. Laws § 27-18-95 Acute Mental Health Crisis Mobile Response and Stabilization Services which establish the requirement for licensure of Mobile Response and Stabilization Services (MRSS) providers delivering crisis intervention and stabilization services to children.~~
3. ~~These regulations further implement 2025-H 5076 Substitute A as amended, which directs the Executive Office of Health and Human Services to establish Mobile Response and Stabilization Services (MRSS) as a Medicaid-covered benefit and the state-sanctioned crisis system for children's behavioral health, adhering to nationally recognized fidelity standards, for children and youth ages two up to twenty-one. For young adults ages eighteen (18) through twenty-one (21) accessing MRSS services (e.g., via RI Suicide & Crisis Lifeline (Lifeline) or other referrals), MRSS providers shall ensure coordination with BHDDH-licensed behavioral healthcare organizations and Certified Community Behavioral Health Clinics (CCBHCs), as clinically appropriate and consistent with applicable~~

Formatted: Indent: Hanging: 0.51"

Formatted: List Paragraph, Right: 0"

statutes and regulations. The Department will oversee MRSS provider compliance through licensure monitoring and quality assurance activities, including but not limited to routine and complaint-based monitoring; review of clinical and care coordination documentation; evaluation of referral and coordination practices with BHDDH-licensed providers; and review of performance measures and required reporting.

4. Accordingly, these regulations establish two (2) levels of licensure for entities providing mental health emergency services to children:

- Emergency Services (ES) Licensure, authorizing the delivery of immediate crisis intervention; and
- Mobile Response and Stabilization Services (MRSS) Licensure, required for the provision of mobile crisis response and stabilization services. MRSS providers must meet all standards applicable to ES licensure, in addition to satisfying MRSS-specific requirements.

← **Formatted:** Indent: Left: 2", No bullets or numbering

5. These regulations do not apply to emergency service interventions that result in emergency hospitalizations under R.I. Gen. Laws § 40.1-5-7. This statute provides that when an emergency hospitalization needs to occur, the preauthorization procedure required for authorization by the insurance company may be waived by the certified emergency service provider to protect the safety and well-being of the child and family

← **Formatted:** List Paragraph, Indent: Left: 2", Right: 0", Space After: 8 pt, Line spacing: Multiple 1.16 li, No bullets or numbering

4.

B. Legal Basis

1. These regulations are issued pursuant to:

- a. R.I. Gen. Laws § 42-72-5, Power and Scope of Activities of the Department of Children, Youth and Families
- b. R.I. Gen. Laws Chapter § 40.1-5, Mental Health Law
- b. R.I. Gen. Laws §§ 40.1-5-5, 40.1-5-6 and 40.1-5-8, Mental Health Law
- c. R.I. Gen. Laws § 42-72-5.2, Development of a Continuum of Children's Behavioral Health Programs
- e-d. R.I. Gen. Laws § 27-18-95 Acute Mental Health Crisis Mobile Response and Stabilization Services
- d-e. R.I. Gen. Laws § 42-72.1, Licensing and Monitoring of Child Care

← **Formatted:** Indent: Left: 0.49", Right: 0", No bullets or numbering

← **Formatted:** List Paragraph, Indent: First line: 0", Right: 0"

Providers and Child-Placing Agencies

f. 2025-H 5076 Substitute A as amended, directing the Executive Office of Health and Human Services to establish Mobile Response and Stabilization Services (MRSS) as a Medicaid-covered benefit for children and youth ages two up to twenty-one.

g. R.I. Gen. Laws § 23-4.6-1 (minors' consent to certain health care services)

2. These regulations are consistent with the provisions of Utilization Review of Health Care Services (216 RICR 40-10-20).

2. These regulations include children with Serious Emotional Disturbances (SED) as defined by R.I. Gen. Laws § 42-72-5.

3. Nothing in these regulations shall be construed to alter or supersede the requirements of R.I. Gen. Laws Chapter 40.1-5 (Mental Health Law) or R.I. Gen. Laws § 23-4.6-1 regarding emergency certification, voluntary admission, and minors' consent.

C. Philosophy

1. In accordance with R.I. Gen. Laws § 42-72-5, the Department is responsible for the delivery of appropriate mental health services that match the needs of children.

2. Appropriate behavioral health services may include psychiatric hospitalization, residential treatment and community based mental health services, including emergency service interventions.

3. The Department has established a service delivery system based on System of Care values to work with families with a child with severe emotional disturbance(s). It is the objective of the Department to develop a culturally and linguistically competent, community based, youth guided and family driven service system, which is responsive to needs and built on strengths.

4. These regulations further reinforce the Department's values by establishing standards for a child family competent Clinician (hereinafter, Clinician) who is providing emergency service interventions for children and families. These standards require that the Clinician is knowledgeable of the full range of follow up services and resources including:

- a. Community supports and neighborhood resources
- b. Community mental health services such as outpatient mental health, intensive outpatient and in-home services

- c. In-home supports such as respite and crisis de-escalation
- d. Twenty four hour community based programs such as shelters, respite, crisis stabilization and acute residential treatment
- e. Twenty four hour Inpatient psychiatric hospitalization

D.C. Definitions

1. "Adolescent" means an individual ages twelve (12) through seventeen (17), unless otherwise specified.

← **Formatted:** Normal, No bullets or numbering

2. "Behavioral health emergency" means a situation in which a child, adolescent, or young adult, due to a behavioral health condition - including mental health conditions or substance use (such as overdose, intoxication, or withdrawal) - is at imminent risk of harm to themselves or others and requires immediate intervention to prevent that harm. Such an emergency may be identified by the child or adolescent themselves through self-reporting a crisis or requesting immediate help, or it may be recognized by any person based on observable signs, behaviors, statements, or other indications that would lead a reasonable person to conclude that urgent action is needed to protect the child or adolescent or others from harm.

← **Formatted:** Indent: Left: 1", No bullets or numbering

3. "Behavioral health emergency service interventions" constitute steps and actions that are taken by a child-family competent behavioral health provider to address a behavioral health crisis, including telephone contact, crisis evaluation in the community and follow-up service planning. These interventions take place in a community setting, including (but not limited to) homes, schools, police stations, emergency departments, homeless shelters, child care settings, community mental health providers, or any other community-based setting.

← **Formatted:** List Paragraph, Indent: Left: 1", Right: 0", Space After: 0 pt, Line spacing: single, No bullets or numbering

4. "Behavioral healthcare" means the umbrella term that encompasses all mental health and substance use related assessment, treatment, prevention, and support services.

← **Formatted:** Indent: Left: -0.01", Hanging: 0.51", No bullets or numbering

5. Certified Community Behavioral Health Clinic (CCBHC)" means an organization that has been licensed by BHDDH as a Behavioral Healthcare Organization (BHO) and certified by the Executive Office of Health and Human Services (EOHHS) as a CCBHC to provide a comprehensive range of mental health and substance use disorder services. CCBHCs deliver coordinated, accessible, and culturally competent care, including crisis intervention, outpatient treatment, and community-based services, in

← **Formatted:** Indent: Left: -0.01", Hanging: 0.51", No bullets or numbering

← **Formatted:** Indent: Left: 1", No bullets or numbering

accordance with federal and state standards for quality, safety, and integration of care.

6. "Child" means an individual under age eighteen (18).
7. "Children and youth," as used in these regulations, includes individuals ages two (2) through twenty-one (21), consistent with R.I. Gen. Laws § 27-18-95 and 2025-H 5151, except where a different age range is expressly stated.
- 4.8. "Child-family competency" means proficiency in clinical practice skills with children with severe emotional disturbance and their families, knowledge of research on child development, application of the knowledge in a clinical context and familiarity and experience with community resources

that benefit children and families, including knowledge of the cultural beliefs and practices of the diverse communities served.

9. "Child-family competent clinician" (herein referred to as Clinician) includes, but is not limited to: Psychiatrists, Licensed Psychologists, Psychiatric and Mental Health Advanced Practice Registered Nurses (APRNs), Registered Nurses with a Bachelor of Science in Nursing (BSN), Licensed Independent Clinical Social Workers (LICSWs), Licensed Clinical Social Workers (LCSWs), Licensed Marriage and Family Therapists (LMFTs), Licensed Mental Health Counselors (LMHCs), Qualified Mental Health Professionals (QMHPs), and associate-level licensees such as Licensed Marriage and Family Therapist Associates (LMFTAs) and Licensed Mental Health Counselor Associates (LMHCAs), including, clinicians with substance use disorder expertise, such as Licensed Advanced Alcohol and Drug Counselors (LAADCs) and Licensed Alcohol and Drug Counselor (LADC). The clinician must have at least one year of clinical experience with children and adolescents who have behavioral health problems. The clinician must meet the child-family competency standards outlined in Section 62.F.

- a. Each licensed provider must determine the child-family competency of all staff members providing children's ES or MRSS services. These competencies are developed through a combination of formal education, supervised clinical experience, and ongoing professional development. Provider agencies are responsible for verifying and documenting that staff meet these requirements through personnel files, training records, and supervision logs.

2. "Child-family competent clinician" means a Registered Nurse, Masters Level Clinician, licensed Master's Level Mental Health Clinician, M.D., Ph.D., Ed.D. or Psy.D. Psychologist, Master's Level Nurse, or Clinical Nurse Specialist. The Child Family Competent Clinician (hereinafter,

Formatted: Indent: Left: 1", No bullets or numbering

Formatted: Indent: Left: 0", Hanging: 0.51", No bullets or numbering

~~Clinician) must have at least two years of clinical experience with children and adolescents who have behavioral health problems. This clinical experience must have been supervised by an independently licensed mental health Clinician. The Clinician must meet the standards of Child Family Competency as described in the standards below.~~

~~a. Each certified Provider must determine the child family competency of all staff providing children's emergency services.~~

~~3. "Crisis evaluation" means a comprehensive assessment by the Clinician to evaluate the seriousness of the mental health and substance use crisis based on the child's functioning and risk to self and others and the family/caregiver's potential, skill level and capacity, with appropriate supports, to manage the behaviors that put the child at risk. The crisis evaluation includes screening for substance use disorder and, when indicated, an assessment of the appropriate level of care using evidence-informed criteria unless otherwise defined in statute.~~

~~3.~~
~~4. "Cultural and linguistic competency" means a core competency within the practice of behavioral health services. It includes the understanding that perception of severe emotional disorders, crises and their causes vary by culture. Culture influences help-seeking behaviors and attitudes toward mental health services and emotional well-being. means the ongoing ability of a licensed provider organization and its staff to deliver behavioral health services that are respectful of and responsive to the cultural and linguistic needs of the children and families served. This includes understanding that perceptions of behavioral health conditions, crises, and their causes vary across cultures, which influences help-seeking behaviors and attitudes toward services.~~

~~a. Linguistic competency includes:~~

~~b.a. Phone lines and web sites that assure access for people who are deaf or hearing impaired~~

~~c. Interpretation services available within the two (2) hour time period for Emergency Services~~

~~d.b. Translated materials/forms for persons who do not speak or read English in the communities served by the Emergency Services Program Emergency Services or Mbbile Response and Stabilization Services program.~~

~~4. "Family support worker" means a person who has first-hand family experience with mental health emergency service interventions as a parent, sibling or consumer and who is available to the family as part of the follow up service plan developed by the Clinician and the family~~

Formatted: List Paragraph, Indent: Left: 1", Right: 0",
No bullets or numbering

Formatted

5. "Current accreditation from the Joint Commission" means a valid, active accreditation status granted by the Joint Commission, a nationally recognized, independent organization that evaluates and accredits healthcare organizations based on established standards for quality, safety, and performance in the delivery of behavioral health and other healthcare services.
6. "Current certificate from CARF" means a valid, active certification issued by the Commission on Accreditation of Rehabilitation Facilities (CARF), an international, independent organization that accredits behavioral health, human services, and rehabilitation programs based on rigorous standards for service quality, safety, and outcomes.
7. "Current certification from COA" means a valid, active certification granted by the Council on Accreditation (COA), a national, independent organization that accredits organizations providing child welfare, behavioral health, and community-based services, ensuring compliance with standards for quality, safety, and effective service delivery.
8. "DCO Agreement" means a Designated Collaborating Organization agreement, a formal, state-approved contract between a Mobile Response and Stabilization Services (MRSS) provider and a Certified Community Behavioral Health Clinic (CCBHC) within a specific service area. This agreement outlines the collaborative responsibilities, including care coordination, service integration, and information sharing, to ensure comprehensive, timely, and culturally competent behavioral health crisis intervention and stabilization services for children, youth, and families.
9. "Mental health professional" means a psychiatrist, psychologist or social worker and such other persons, including a psychiatric nurse clinician and licensed advanced practice registered nurse (APRN) as defined in R.I. Gen. Laws § 40.1-5-2, as may be defined by rules and regulations promulgated by the Director of BHDDH.
10. "Mobile Response and Stabilization Services (MRSS)" means a behavioral health crisis intervention program providing immediate de-escalation, stabilization services, and follow-up care for children or youth experiencing a behavioral health crisis. The primary goal is to ensure the safety and well-being of the child or youth through de-escalation, clinical assessment, stabilization, and connection to ongoing support services.
11. "Qualified Mental Health Professional (QMHP)" means a mental health professional, as that term is defined in R.I. Gen. Laws § 40.1-5-2 and applicable BHDDH regulations, who is approved by the Department of Behavioral Healthcare, Developmental Disabilities, and Hospitals (BHDDH) and has a minimum of thirty (30) hours of supervised face-to-face emergency services experience as a psychiatric emergency service worker.

Formatted: List Paragraph, Right: 0"

in Rhode Island. Such experience may be gained through employment with: (i) a community mental health center that conducts emergency psychiatric assessments for individuals under consideration for admission to an inpatient mental health facility; or (ii) a licensed hospital that conducts emergency psychiatric assessments for individuals under consideration for admission to an inpatient mental health facility.

5. "Follow up service plan" means the resolution to the mental health crisis that is developed by the Clinician in partnership with the parent or legal guardian of the child. The plan considers the strengths of the family and child, considers all available community services and matches the services to the needs of the child and family.
6. "Mental health emergency" means a situation perceived by a child, adolescent, caretaker, relative, friend, school professional, healthcare professional, police, or other public safety personnel in the care of, or directly involved with, a child or adolescent that poses a risk of harm to the child, family or other person due to a mental illness.
7. "Mental health emergency service interventions" means steps that are taken by a mental health provider to address a mental health crisis including telephone contact, crisis evaluation in the community and follow up service planning and implementation. These interventions take place in a community setting, including a school, police station, residential program, shelter, day care center, community mental health center, community health center, hospital emergency room or other community setting that the family and the Clinician agree is safe and clinically appropriate to resolve the mental health crisis.
8. "Pre certification" means the process of obtaining approval from the thirdparty payer, which is required as a condition of payment for a specific benefit prior to the service being provided. This regulation requires the Clinician involved in the crisis evaluation to seek approval from the payer, as required by Rite Care, for the services that the family and Clinician determine appropriate for the mental health needs of the child.
12. "System of Care (SOC)" means a coordinated array of easily accessible services that address the behavioral health treatment needs of children and adolescents who have serious emotional disturbances. The SOC operates consistent with core principles and values that are strength-based, child-centered and family-driven. The services are culturally and linguistically competent and emphasize natural and community-based supports that complement behavioral health services provided by professionals in agency and hospital settings. The SOC promotes cross-system collaboration among education, child welfare, juvenile justice, and

healthcare systems, and ensures that care is individualized, provided in the least restrictive environment, and guided by measurable outcomes.

13. "Warm handoff" means a seamless transfer of care from one provider or service to another, involving direct, facilitated introduction of the child and family/caregiver through face-to-face, telephonic, or video interaction - to the receiving provider, ensuring continuity of support reduced risk of disengagement and immediate access to appropriate ongoing behavioral health or community services.

9.14. means core principles and values that are strength based, child centered and family driven. SOC involves establishes and supports a range of easily accessible services for children and adolescents with serious emotional disturbances. The services are culturally and linguistically competent and emphasize natural and community based supports that complement mental health services provided by professionals in agency and hospital settings.

10. "Utilization review" means prospective, concurrent or retrospective assessment of the medical necessity and appropriateness of the allocation of health care services of a provider, given or proposed to be given to a patient or group of patients, as defined in the Utilization Review of Health Care Services (216 RICR 40-10-20) cited above.

15. "Young adult" means an individual ages eighteen (18) through twenty-one (21).

16. "Youth" means an individual ages twelve (12) through seventeen (17), unless otherwise specified.

D. Coordination with BHDDH

These regulations govern licensure and standards for children's mental health emergency services and Mobile Response and Stabilization Services (MRSS). DCYF maintains primary responsibility for mental health services for children under eighteen (18), consistent with R.I. Gen. Laws § 42-72-52. These regulations are promulgated in coordination with the Department of Behavioral Healthcare, Developmental Disabilities, and Hospitals (BHDDH), which retains its statutory authority pursuant to R.I. Gen. Laws Chapters 40.1-5 and 40.1-8.5 and §§ 40.1-1-13, 40.1-1-16, 40.1-5.4-4, 40.1-5.4-11, 40.1-24-3, 40.1-24-7, 40.1-24-9, 40.1-24-17, and as the State Mental Health Authority and Single State Authority for substance use disorder services, including for individuals ages eighteen (18) through twenty-one (21)."

Authority for the reporting and investigation of abuse, neglect, and exploitation of individuals ages 18 through 21 is shared by DCYF and BHDDH. BHDDH derives

Formatted: List Paragraph, Right: 0"

Formatted: List Paragraph, Indent: Left: 1", Right: 0", Space After: 0 pt, Line spacing: single, No bullets or numbering

Formatted: Indent: Left: -0.01", Hanging: 0.51", No bullets or numbering

Formatted: List Paragraph, Indent: Left: 1"

its authority from R.I. Gen. Laws §§ 11-5-10.2, 11-5-11, 11-5-12, 23-17.8-2, 23-17.8-3 40-8.5-2, 40.1-5-3, 40.1-26-10, and 40.1-27-2.

E. Consent for Emergency Service Interventions Involving Minors

In Rhode Island, consent requirements for emergency service interventions, including both Emergency Services (ES) and Mobile Response and Stabilization Services (MRSS), depend on age, marital status, and specific circumstances. Minors under 16 generally require parental or legal guardian consent for behavioral health services, including ES and MRSS, unless an exception applies, such as emergencies or imminent risk of serious harm (R.I. Gen. Laws § 23-4.6-1). Minors aged 16 or older, or those who are married, may independently consent to ES and MRSS, and a minor parent can consent for their child (R.I. Gen. Laws § 23-4.6-1). In emergency situations, minors of any age can receive immediate ES and MRSS crisis assessments and interventions without parental consent to prevent harm. Additionally, minors posing an imminent risk of serious harm due to a psychiatric disability may be certified for emergency inpatient treatment without parental consent by a physician, advanced practice registered nurse, or Qualified Mental Health Professional (QMHP) (R.I. Gen. Laws § 40.1-5-7). ES and MRSS providers must document consent or the specific exception applied, such as emergency intervention.

Formatted: Indent: Left: 0.5", Right: 0", Space After: 11.4 pt, Line spacing: Multiple 1.03 li, No bullets or numbering

6.2 CERTIFICATION/LICENSURE STANDARDS FOR MENTAL HEALTH EMERGENCY SERVICE INTERVENTIONS

- A. In order to be certified/licensed for emergency services, the Emergency Service Provider Organization (hereinafter, the Provider) must include a telephone crisis hotline, face-to-face interventions in the community and the means to develop and implement a follow up plan to access community-based and 24-hour services.
- B. The Provider meets the standards established under each component.
- C. Telephone Contact, Support and Follow up
 - 1. The Provider maintains a telephone system for families that includes:
 - a. A phone line and a number which answered by a live voice twenty-four/twenty-four hours per day seven days per week, 365 days per year. The answering service or Provider must have the capacity to ensure accessibility for callers who speak a language other than English and callers who are deaf or hearing impaired.
 - b. The caller has telephone access to the Clinician within fifteen minutes of the initial call to discuss the crisis and to develop a follow up service plan based on the child and their family/caregivers family's needs and collaboration on next steps.

Formatted: List Paragraph, Indent: First line: 0", Right: 0", Space After: 0 pt, Line spacing: single

c. The Provider tracks all phone calls, measures and reports to the Department on the:

- (1) Source of the call—parent, guardian, child or collateral party;
- (2) Percentage of calls answered within fifteen minutes of the original request;
- (3) Number of calls per month;
- (4) Percentage of calls that resulted in a face to face intervention.

2. The Provider works with the Department, the Department of Human Services (DHS) and Rite Care to publicize the service throughout their service delivery area including in languages other than English in diverse communities.

D. The Provider establishes emergency service intervention policies and procedures that meet the following criteria:

1. Families, caregivers, health care professionals and others who are working with a child experiencing a mental behavioral health crisis have access to a Department certified Mental Health Emergency Service Intervention Team that consists of the a Clinician with back-up from a clinical supervisor/administrator. The Clinician may consult with additional qualified treatment professionals, including a child- trained psychiatrist licensed to practice medicine in Rhode Island.
 - a. The Clinician provides face-to-face crisis counseling, evaluation of the current mental behavioral health emergency and the development of a crisis and safety plan and a follow up service plan for a family/caregiver with a child experiencing a mental behavioral health crisis.
 - b.a. The face-to-face contact takes place within two hours of the child and their family's/caregiver's request regardless of the time of day of the call.
 - c.b. The clinical supervisor is available to the Clinician and collateral providers for telephone consultation on the assessment and care planning and returns pages or phone calls within fifteen minutes of the request from the Clinician.

Formatted: Indent: Left: 1.5", Space After: 11.4 pt

2. The family and the Clinician jointly determine the location for the face-to-face crisis intervention to accommodate family needs and preferences, provide for the timeliest and clinically appropriate setting to gather relevant information, increase the chances of de-escalating the crisis and protect the physical safety of all parties.
3. The Clinician meets with the child and family/caregiver and, as part of the intervention, offers support, completes a crisis evaluation, assesses the child and family for risk to harm self or others and engages the family and collateral providers in the assessment and follow up service planning process.
4. The Provider follows up with families/caregivers to make sure that the plan was implemented.
- 4.5. When an overdose or suspected substance use crisis is identified during the intervention, the Clinician shall follow evidence-based overdose response protocols, including administration of naloxone when clinically indicated and permitted under applicable laws and regulations, and shall ensure timely referral to appropriate level of care substance use disorder services, including those specialized for children and adolescents.

Formatted: List Paragraph, Indent: First line: 0", Right: 0"

E. The Provider establishes policies and procedures to complete the emergency service intervention with follow up service planning including:

1. The Clinician works with the child and family/caregiver to resolve the mental behavioral health crisis and to promote the health and safety of the child and the family. The Clinician collaborates with the child and family/caregiver to identify services, either existing or new, in the follow up plan that build on the family's strengths, needs, and preferences.
2. The Provider ensures all staff are familiar with the full range of community, residential and hospital-based services that can best match the family's needs, strengths and preferences.
3. The Clinician discusses the value of a Family Support Worker with the family and, if the family identifies the need for such support, makes arrangements for a follow up face to face visit or telephone call to the family.
- 4.3. The Clinician is also familiar with clinical eligibility criteria and authorization procedures of Rts-CareMedicaid.
- 5.4. The Clinician makes an appropriate referral to a program and/or service based on the child-family assessment and mutually identified needs. The Clinician and/or his/her their organization also complete any pre-certification required by the third party payer or managed care organization child's health insurance plan.

6.5. The Provider ensures that the follow up service planning process includes:

- a. The Clinician discusses the follow up that the family prefers and makes arrangements to contact the family and/or the referral source the following day to make sure that the follow up resource was available.
- b. The Provider has a form that notes the legal guardian's signed agreement on the type of follow up in the encounter document or emergency evaluation that is part of the child's medical record.
- c. The Provider is available to the child and family for follow up contact for seventy-two hours after the initial crisis intervention if other community resources are not immediately available.
- d. The Provider establishes a complaint and grievance procedure if the family disagrees with the follow up service plan.

F. Standards for Child - Family Competency

1. ~~In order to be certifiedTo be licensed~~ to provide emergency service interventions, the Provider must establish a policy for the recruitment and/or training of emergency service staff. Staff must possess the following clinical skills:
 - a. Knowledge of child development, behavior, and psychopathology: The clinician should have a strong understanding of child development and behavior, including the normal range of emotions and behaviors for children of different ages. This includes knowledge of the normal developmental milestones for children of different ages, as well as the signs and symptoms of common behavioral health disorders in children.
 - a. ~~Child interview skills, including assessment of child's coping skills, determining the locus of control and evaluating the risk of the child to harm himself or others based on intent, means and opportunity based on the developmental level and cognitive ability.~~
 - b. Knowledge of family systems: The clinician should have knowledge of family systems theory and how it applies to child and adolescent behavioral health. This includes understanding the concepts of family structure, roles, boundaries, communication patterns and coping strategies. The clinician should also be able to assess the family's strengths and weaknesses and identify any factors that may be contributing to the child's crisis.

- b. Crisis de-escalation and diffusion of the behavioral health emergency, engaging both the child and the family in the intervention, gathering important information to make the best decision on follow-up care, partnering with the families on the follow-up plan and confirming with the families that the plan has been implemented.
- c. Skills in working with children and families: The clinician should have strong skills in working with children and families. This includes the ability to build rapport with children and families, communicate effectively with children and families and provide support to children and families.
- c. Family interview skills, including assessment of the family's coping skills and their ability to manage crisis.
- d. Skills in diagnostic assessment: The clinician should be able to formulate accurate and appropriate diagnoses based on the current version of the Diagnostic and Statistical Manual of Mental Disorders (DSM) and apply diagnostic formulations to assess the child's behaviors and presenting conditions.
- d. The ability to assess family supports and global risks based on the environment of supports and obstacles in which the family lives.
- e. Skills in risk assessment: Child-specific risk and safety assessment skills should include the ability to assess suicide risk, non-suicidal self-injury, violence risk, abuse and neglect, exposure to violence and/or other types of traumas, human trafficking risk, fire setting, substance use, risk of runaway and other clinical presentations that pose an immediate risk or safety issue.
- e. The ability to incorporate family strengths and skills into the risk assessment and follow-up plan.
- f. Skills in family assessment: The clinician should be able to assess the family's structure, roles, boundaries, communication patterns, coping strategies, strengths, needs and goals. A clinician needs to be able to identify and address any family issues or conflicts that may contribute to or exacerbate the child's crisis, such as domestic violence, substance abuse, mental illness, trauma, or neglect.
- f. Skill in partnering with parents using family-centered language in planning follow-up services that match the needs of the child and family.

g. Skills in crisis intervention: The clinician should have strong skills in crisis intervention and suicide prevention for children and families. This includes the ability to assess a crisis situation, accurately assess a child's mental health status, de-escalate a crisis in a family setting, and provide support to the child and family during a crisis. Clinicians without authority to execute an emergency certificate shall immediately request the in-person attendance of a QMHP, psychiatrist, psychiatric APRN, or physician authorized to do so when emergency certification is clinically indicated.

g. Diagnostic formulation according to DSM-IVR criteria and child-specific risk criteria.

h. Knowledge of community resources: The clinician should have knowledge of community resources that can be helpful to children and families in a crisis. This includes knowledge of behavioral health services, social services, and other community resources.

h. Age-appropriate crisis interventions designed to reduce immediate symptoms of behavioral health risk.

i. Ability to work collaboratively with other professionals: The clinician should be able to work collaboratively with other professionals, such as teachers, doctors, first responders, social workers, and other behavioral health professionals. This collaboration is essential for providing comprehensive and coordinated care to children and families in crisis.

i. Application of diagnostic formulation to determine the child's behavior as a Serious Emotional Disturbance, the immediate risk factors of the child's potential to harm him/herself or others and the child's and family's strengths as factors in managing the crisis.

j. Cultural competence: The clinician should be culturally competent and aware of and sensitive to the cultural beliefs and practices of the children and families they serve.

j. Skill in applying differential interventions for families from diverse cultural, linguistic and ethnic backgrounds, ability to work effectively with interpreters and clinical skills to provide interventions within a cultural context.

k. Other training specific to RI Mental Health Laws, mandatory reporting requirements in cases of child abuse and neglect, Adverse Childhood Experiences (ACEs), trauma and trauma-informed care and social drivers of health, also known as social determinants of health and responding to youth with disabilities.

Formatted: Indent: Left: 1.49", No bullets or numbering

← **Formatted:** No bullets or numbering

2. 2. To be licensed to provide emergency service interventions, the ES Provider must establish policies and procedures for maintaining and verifying documentation that demonstrates all clinical staff meet the child-family competency requirements outlined in 6.2.F.1a-k. The documentation must include, at a minimum:In order to be certified, the Provider must confirm in writing that staff who provide child emergency service interventions possess knowledge of:
 - a. Resumes or curriculum vitae verifying education, training, and relevant experience;
 - a. Age appropriate behavior, attitude and conceptualization;
 - b. Professional licensure and certifications as applicable to the staff role;
 - b. Appropriate roles of parents with children based on age and behavior and culture;
 - c. Training records must demonstrate completion of required areas, including but not limited to: knowledge of child development, behavior, and psychopathology; family systems theory and family assessment; skills in working with children and families (including building rapport, effective communication, and providing support); diagnostic assessments skills using the current DSM; risk and safety assessment (including suicide risk, non-suicidal self-injury, violence, abuse/neglect, trauma exposure, and other immediate safety risks); crisis intervention and suicide prevention; knowledge of community resources; ability to collaborate with other professionals; cultural and linguistic competence; Rhode Island mental health laws and mandatory reporting requirements for child abuse and neglect; trauma-informed care, Adverse Childhood Experiences (ACEs), and social determinants (or drivers) of health; and responding to youth with disabilities.
 - c. Indications and side effects of psychiatric medications that are commonly prescribed for children and adolescents and how such medications are metabolized based on race, ethnicity and age;
 - d. Agency policies and procedures describing recruitment, orientation, supervision, and ongoing training for emergency services staff.

← **Formatted:** No bullets or numbering

- d. The full range of legal status categories of children involved with the Department and the rights of children and families to consent to or refuse treatment;
- e. How children and families of diverse cultures view sharing information, behavioral health and social services and emergency/crisis situations;
- f. Informal supports and extended family support as valid interventions; and
- g. Matching services to the assessed needs of the child and family based on SOC principles for an array of community-based services in a range of cultural contexts.

~~In order to be certified To be licensed~~ as a Provider, the organization must provide ongoing training, consultation, support and updated information to staff who provide emergency service interventions. The Provider ensures a minimum of ten hours of training per year on best and promising practices in children's behavioral health and ~~monthly updates on the changing network of managed care programs and knowledge of~~ community resources including:

- a. The types of ~~Rts-Care~~ Medicaid coverage and third party payers ~~and,~~ the behavioral health benefit packages ~~and the behavioral health provider network of each insurance company~~
- b. The eligibility and/or admission criteria for the children's behavioral health treatment programs.
- c. A list of contact names and phone numbers for the community providers of children's behavioral health treatment, advocacy, support and collateral services.
4. The Provider has an identified subject matter expert on the SOC referral process and how to obtain access to social service, housing, employment and other Medicaid-funded services.
5. The Provider ensures all staff have knowledge of culture-specific services, the linguistic capacity of community services and the ability to work effectively with an interpreter of sign language and/or spoken language.
6. The Provider identifies a clinical subject matter expert who can provide training and consultation to the emergency services staff based on his/her expertise on the current best practice interventions in the field of children's behavioral health.

G. Program Monitoring and Quality Improvement

1. The Provider collects encounter data on emergency service interventions monthly as described herein.
 - a. Complete and forward mandated forms and reports to the Department.
 - b. Provides aggregate report to the Department monthly.
2. The standardized report includes aggregate data of emergency service interventions that capture the age, gender, ethnicity, status with the Department, child's living arrangement, insurance coverage, time of day, day of week, location of intervention and type of disposition.

3. Telephone Performance Metrics

The Provider shall track all telephone contacts and shall report the following metrics to the Department monthly in the format prescribed by the Department

Formatted: Indent: Left: 1", No bullets or numbering

- a. Source of the call (e.g., parent, guardian, child, or collateral party).
- b. Percentage of calls in which a clinician was made available to the caller within fifteen (15) minutes of the initial request.
- c. Total number of calls received per month.
- d. Percentage of calls that resulted in a face-to-face intervention.
- e. Time of call and reason for the call.

Formatted

Formatted

Formatted: No bullets or numbering

2.

3. The Provider develops an internal process to review complaints from the family or other parties involved in the intervention.

4. The Provider shall have a process for resolving disagreements with the family/caregiver, has a process, consistent with the DHS Fair Hearing process, of resolving disagreements with the family around the follow-up service plan.

Formatted: Right: 0.04", Numbered + Level: 1 + Numbering Style: A, B, C, ... + Start at: 7 + Alignment: Left + Aligned at: 0.5" + Indent at: 0.5"

H. The Provider is credentialed by and contracts with all Rhode Island Medicaid Managed Care Organizations/HMO's and is knowledgeable of the authorization procedures required to access services identified in the follow up service plan.

Formatted: List Paragraph, Numbered + Level: 1 + Numbering Style: A, B, C, ... + Start at: 7 + Alignment: Left + Aligned at: 0.5" + Indent at: 0.5"

H.I. The Provider has an established training protocol in children's behavioral health that includes an annual plan to address the best practices and current findings related to working with children with serious emotional disturbances and their families in a culturally and linguistically competent manner and from an individual and family systems perspective.

6.3 LICENSURE STANDARDS FOR MOBILE RESPONSE AND STABILIZATION SERVICE (MRSS) INTERVENTIONS

Formatted: Not Highlight

A. General Requirements

1. To be licensed to provide Mobile Response and Stabilization Services (MRSS), a provider must meet the requirements for Emergency Services (ES) licensure as outlined in Section 62 A.I.

Formatted: Not Highlight

2. MRSS providers must meet additional standards to deliver mobile crisis intervention and stabilization services, consistent with R.I. Gen. Laws § 27-18-95
3. MRSS providers shall provide services to all children and youth presenting with behavioral health crises, regardless of insurance status, coverage limitations, or ability to pay
4. MRSS services are available to children and youth ages two to twenty-one, inclusive. Providers shall deliver services in a developmentally appropriate manner.
5. In addition to DCYF requirements as they pertain to reporting of abuse, neglect and/or exploitation, and cooperating with any investigations of such allegations, MRSS providers shall comply with all reporting and investigation requirements pursuant to R.I. Gen. Laws §§ 11-5-102, 11-5-11, 11-5-12, 23-17.8-2, 23-17.8-3 40-8.5-2, 40.1-5-3, 40.1-26-10, and 40.1-27-2.
6. MRSS providers must maintain coordination protocols with RI Suicide & Crisis Lifeline (Lifeline).

B. MRSS Service Delivery

1. MRSS providers must deliver services in three phases: screening and triage, mobile crisis response, and stabilization, as follows:
 - a. Screening and Triage: Providers must maintain a 24/7/365 telephone system that is answered by a live voice, as specified in Section 6.2.C, and must determine the response type (Immediate, Non-Immediate, or Emergency) as follows:
 - i. Immediate: A mobile crisis team responds within 60 minutes to the crisis location, with telephonic support provided until in-person response arrives.
 - ii. Non-Immediate: A mobile crisis team is deployed within 1 to 24 hours at a time requested by the family/caregiver or referral source, unless a delayed response increases risk to the child. A non-immediate response is used only when requested by the referral source.
 - iii. Emergency: An emergency necessitating transfer to 911 is defined as a situation where an individual's needs exceed MRSS capabilities. This includes cases requiring urgent medical attention (e.g., overdose, severe self-injury) or involving

Formatted: Justified, Indent: Left: -0.01", Hanging: 0.51", Space After: 11.4 pt, Line spacing: Multiple 1.03 li, No bullets or numbering

Formatted: Not Highlight

active violence posing imminent danger. Following a transfer, MRSS will coordinate with emergency services within 24 hours.

Formatted: Not Highlight

b. Mobile Crisis Response: Providers must deploy a two-person mobile crisis team, including a child-family competent clinician and another clinical or paraprofessional staff member, with a Qualified Mental Health Professional (QMHP) included on each team. The team must:

- i Conduct immediate safety and risk assessments, including mental status exams and evaluations for suicide risk, non-suicidal self-injury, violence, abuse/neglect, and other immediate risks.
- ii Provide age-appropriate de-escalation and stabilization, prioritizing crisis resolution before screenings or referrals.
- iii Develop an initial crisis and safety plan in partnership with the child and family/caregiver, outlining triggers, strategies, and resources tailored to their needs.
- iv Avoid law enforcement involvement unless safety necessitates it, with family input and notification.
- v Obtain necessary releases and permissions.
- vi Facilitate direct linkages to higher levels of care if the child cannot remain safely in the community, completing pre-certification as required by the health insurance plan.

Formatted: Not Highlight

Formatted: Not Highlight

c. Stabilization: Providers must offer stabilization services for children and youth in crisis, tailored to the needs of the child or youth and their family or caregivers. Stabilization may be provided for a period of up to 30 days, unless the child transitions to appropriate services sooner, or longer if necessary such as when follow-up services are not yet available. Stabilization includes:

- i A biopsychosocial assessment and screening tools to inform a follow up service plan.
- ii At least one (1) face-to-face meeting per week with the child and family/caregiver, or more frequent meetings as clinically indicated based on assessment progress, and family/caregiver preferences.
- iii Telephone support and coordination and consultation with external providers (e.g., schools, community services).

Formatted: Not Highlight

Formatted: Indent: Left: 1.75", No bullets or numbering

Formatted: Not Highlight

Formatted: Left, Space After: 0 pt, Line spacing: single, Outline numbered + Level: 4 + Numbering Style: i, ii, iii, ... + Aligned at: 1.5" + Indent at: 1.75"

Formatted: Not Highlight

- iv Collaboration with the child and family to set short-term goals and connect to formal, informal, and natural supports.
- v Warm handoffs to existing or new service providers for ongoing needs, ensuring continuity of care.
- vi Assessment of immediate basic needs (e.g., food, housing, transportation) and linkage to community resources.
- vii Access to a 24/7/365 on-call system with clinical support throughout the stabilization period.

d. If a child or youth experiencing a crisis is already engaged with an existing behavioral health service provider, and that provider is unable to respond with immediate capacity, the MRSS provider shall deliver the mobile crisis response and ensure a warm handoff back to the existing provider. In these cases, the MRSS provider may offer stabilization services upon referral, if the existing provider cannot offer timely support, or if the child or youth requires a higher level of care than the existing service can deliver.

e. MRSS providers must collaborate with child-serving systems, including schools, courts, child welfare, juvenile justice, and community supports, to ensure coordinated care and to prioritize maintaining children and youth in their homes, schools, and communities whenever safe and appropriate.

Formatted: List Paragraph, Outline numbered + Level: 3 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Right + Aligned at: 1.13" + Indent at: 1.25"

Formatted: Not Highlight

C. Service Areas, Statewide Capacity, and Mutual Aid

1. Scope of Licensure and Designation of Primary Service Areas

- a. An MRSS license authorizes a provider to offer MRSS services statewide.
- b. As part of the licensure application, each MRSS provider shall identify one or more primary service areas in which it will maintain priority responsibility for service availability, accessibility, and timely response.
- c. Primary service areas must align with the geographic service areas of the state's Certified Community Behavioral Health Clinics (CCBHCs). Alignment shall be demonstrated by one of the following:

- i Documentation that the applicant is the CCBHC serving that geographic area and intends to serve as the licensed MRSS provider for that area; or
- ii Submission of a Letter of Intent (LO) signed by the CCBHC(s) for the geographic area, indicating the parties' intent to execute a non-financial DCO agreement upon licensure.

d. Upon licensure, the MRSS provider must execute a state-approved DCO agreement with the CCBHC(s) for each designated primary service area, unless the CCBHC itself is the licensed MRSS provider for that area.

2. Primary Accountability

An MRSS provider is primarily accountable for maintaining adequate staffing, oversight, and operational capacity to meet response time and service requirements within its designated primary service areas.

3. Mutual Aid Requirements

- a. All MRSS providers must maintain mutual-aid agreements with all other DCYF-licensed MRSS providers. Mutual-aid agreements must establish clear procedures for requesting and providing backup during periods of exceptional demand, staffing shortages, or other capacity constraints affecting timely response in a provider's primary service area.
- b. Mutual aid must incorporate considerations of family preference and clinical appropriateness. When feasible, families shall be informed when a mutual-aid provider will respond and given basic information about that provider.
- c. Mutual aid is intended for exceptional circumstances and shall not be used as a routine or ongoing staffing strategy. A provider's license may be subject to review or action if the Department determines that it is relying excessively on mutual aid due to a failure to maintain adequate staffing for its primary service area.
- d. In the event of CCBHC service area having no designated MRSS provider via a DCO contract, licensed MRSS providers shall temporarily assist in covering services in that area via mutual aid until a DCO contract is signed.

4. Statewide Response Capacity

Formatted: Indent: Left: -0.01", Hanging: 0.51", Space After: 11.4 pt, Line spacing: Multiple 1.03 li, No bullets or numbering

Because all MRSS providers maintain mutual-aid agreements, each provider is part of the statewide MRSS response network and may be activated to respond outside its primary service areas through the mutual-aid process. MRSS providers are therefore required to have care coordination agreements with all CCBHCs outside of their primary service area. Statewide operational capacity is further supported by CCBHCs' responsibility to ensure MRSS access in each geographic service area through licensure or DCO arrangements.

D. Staffing Requirements

1. MRSS providers must meet all ES staffing standards in Section 6.2.F and ensure the following additional requirements:
 - a. Mobile crisis teams must include a QMHP on every two-person team.
 - b. When a QMHP performs functions governed by the Mental Health Law, including emergency certification, such activities shall be conducted in accordance with R.I. Gen. Laws § 40.1-5-7 and applicable BHDDH regulations, and do not expand DCYF's statutory authority to approve QMHPs.
 - c. Providers must submit staffing schedules as part of their initial application and every six (6) months thereafter, using a Department-approved template. The staffing schedules must specify staff names and credentials, position titles and roles, regularly scheduled hours and shifts, and on-call coverage including rotation schedules, as well as any other information the Department determines necessary to assess staffing capacity. The Department will review and approve all staffing schedules to ensure that providers maintain adequate staffing levels and appropriate coverage to meet service demands.
 - d. Staff must have access to a child and adolescent psychiatrist or an Advanced Practice Registered Nurse (APRN) certified in Psychiatric/Mental Health for 24/7/365 on-call consultation.
 - e. All mobile crisis team staff (clinical and paraprofessional) shall receive routine clinical supervision that includes a minimum of one hour of individual supervision and three hours of group supervision per month for full-time staff (pro-rated for part-time staff), and shall have 24/7/365 access to a qualified clinical supervisor.
 - f. Staff composition should reflect the racial, ethnic, linguistic, and gender diversity of the communities served, whenever possible.
2. MRSS providers must notify the Department within 24 hours when capacity is reached, including current caseload, staffing levels, and estimated duration of

Formatted: Indent: Left: 0.25", No bullets or numbering

Formatted: Justified, Space After: 11.4 pt, Line spacing: Multiple 1.03 li

Formatted: Not Highlight

constraints. Providers shall establish mutual aid agreements with system partners to manage demand spikes, ensuring continuous availability, accessibility, timeliness, and flexibility.

E. Data Collection and Documentation

1. MRSS providers must comply with ES data collection and documentation standards in Section 6.2.G.
2. Providers delivering Mobile Response and Stabilization Services (MRSS) will be required to consistently track and report on a set of fidelity measures designed to assess adherence to the core components of the MRSS model. Providers will be expected to submit this data to DCYF on a regular basis, following a reporting schedule and format that will be determined by the Department.
3. Providers must document all interactions and services related to crisis care, including but not limited to triage calls, screening, crisis assessments, biopsychosocial assessments, safety and crisis plans, interventions, stabilization services, and any follow-up or referrals. Documentation must be timely, accurate, comprehensive, clear, accessible to authorized users, and compliant with protected health information (PHI) regulations under the Health Insurance Portability and Accountability Act of 1996 (HIPAA).
4. The provider shall establish an internal process to regularly review all MRSS records for completeness, clinical quality and compliance with documentation standards, and shall develop and implement corrective action plans as needed when deficiencies are identified.

6.43 CERTIFICATION/LICENSURE PROCESS FOR PROVIDERS OF EMERGENCY SERVICE (ES) AND MOBILE RESPONSE AND STABILIZATION (MRSS) INTERVENTIONS

A. Overview

1. The Department of Children, Youth, and Families (the Department) licences providers of children's mental health emergency services under two distinct levels:

► **Formatted:** Not Highlight

- a. Emergency Services (ES) Providers: Deliver behavioral health crisis interventions, as outlined in Section 6.2.
- b. Mobile Response and Stabilization Services (MRSS) Providers: Deliver behavioral health crisis interventions and stabilization services for children and youth, as outlined in Section 6.3, and must meet all ES standards.
2. Organizations applying for licensure as ES or MRSS Providers must submit an application to the Licensing Division at the Department, demonstrating compliance with the standards outlined in Section 6.2 and, for MRSS Providers, additional requirements specified in Section 6.3.

B. Application Submission

1. Organizations submit applications for ES or MRSS licensure to the DCYF Licensing Division.
2. DCYF reviews applications for completeness within 10 business days. Incomplete applications are returned to the applicant if the applicant does not provide the missing information within 30 calendar days of the date of notification of an incomplete application.
3. Organizations may reapply at any time following denial of an initial application. Following revocation of a license or denial of a renewal application, the organization may not reapply for one (1) year from the date of the revocation or denial.

C. Application Requirements for ES Providers

1. Organizations applying to be licensed as ES Providers must submit the following to the Licensing Division:
 - a. Statement of Assurances: A notarized commitment by the organization to comply with these regulations; submit monthly activity reports in a format prescribed by the Department; ensure that all staff, volunteers, contractors, and subcontractors who may have direct contact with children successfully complete and maintain current statewide and nationwide criminal record background checks, statewide and national sex offender registry checks, and child abuse and neglect (Child Protective Services) clearances as required by the Department; prohibit any individual with a disqualifying finding from providing services to children under this license; and adhere to all other applicable Department policies and procedures.

D. Additional Application Requirements for MRSS Providers Formatted: Not Highlight

1. Organizations applying to be licensed as MRSS Providers must meet all ES Provider application requirements listed in Section 6.4(B) and provide the following additional documentation to demonstrate expertise in delivering child-specific mobile response and stabilization services, as required by (R.I. Gen. Laws § 27-18-95 Acute Mental Health Crisis Mobile Response and Stabilization Services)
2. Evidence of at least one year of experience providing Mobile Response and Stabilization Services (MRSS); or prior experience delivering mobile crisis and stabilization services for children and youth, combined with participation in recognized MRSS training or technical assistance to ensure consistency with the MRSS model and fidelity to its core principles. Such experience shall be as verified by DCYF through documentation or other relevant information submitted by the provider, including data on crisis response times, stabilization outcomes, and community linkages.
3. MRSS providers must demonstrate the capacity to reliably provide MRSS services for children and families within their designated service area and to participate in statewide coverage through mutual aid arrangements.
4. Policies and procedures for delivering stabilization services post-crisis, including:
 - a. Evidence of capacity to provide stabilization services, such as clinical services, care coordination, peer support, and other community-based services to address acute behavioral health crises.
 - b. Protocols for collaborating with youth and families/caregivers to develop and implement individualized crisis and safety plans, incorporating formal, informal, and natural supports tailored to the child and family's needs.
 - c. Documentation of staffing that includes at least one Qualified Mental Health Professional (QMHP), on every two-person mobile crisis team.
 - d. A description of a robust data collection and reporting system capable of tracking stabilization outcomes, including client engagement, service utilization, and disposition data, for Department review.

e. For each primary service area designated in its application, the MRSS provider shall either be the CCBHC serving that geographic area or shall have (or, for initial licensure, provide a Letter of Intent to execute upon licensure) a state-approved DCO agreement with the CCBHC(s) whose geographic service area corresponds to that primary service area.

Formatted: Not Highlight

B. Organizations applying to be certified as Providers of children's emergency service interventions complete and submit an application for certification for mental health emergency interventions to the Department. The following information must be included with the application:

1. Documentation of contracts with the Rite Care HMOs as a behavioral health provider;
2. Documentation of Certification by the Council on Accreditation of the Child Welfare League of America (COA) or Joint Commission on Accreditation of Hospital Organizations (JCAHO) or Commission on Accreditation of Rehabilitation Facilities (CARF) and licensure by the Department of Behavioral Healthcare, Developmental Disabilities and Hospitals (BHDDH);
3. A description of the organization's delivery of children's emergency service interventions that specifically addresses:
 - a. Staffing of Child Family competent clinicians;
 - b. Twenty four hour per day, seven (7) day per week live telephone coverage with administrative back up;
 - c. Determination of child family competency in recruitment, training and supervision of clinical staff;
4. A commitment to reporting to the Department and Rite Care on monthly activity using the Department reporting format and a commitment to develop internal review mechanisms to monitor compliance with these standards.
5. A statement identifying the geographical areas the organization can reliably serve based on knowledge of and access to local mental health and community based services and the organization's ability to meet the timelines within these standards.
6. Elements of the organization's quality improvement plan that relate to children's behavioral health services.

7. A statement assuring compliance with Department Operating Procedure 100.0215, Criminal Record Checks and 100.0155, Clearance of Agency Activity.

C.E. Applicant Eligibility

1. Any organization that provides behavioral health services to children and meets the criteria below may apply to become a certified Provider, a licensed ES and/or MRSS provider.
 - a. The organization is licensed as a Behavioral Health Organization by the Department of Behavioral Healthcare, Developmental Disabilities and Hospitals (BHDDH) or under regulations promulgated by the Department per RI. Gen. Laws § 42-72.1.
 - a. Organization is licensed as a community mental health center by BHDDH.
 - b. Organization is a certified Medicaid provider in Rhode Island and has one of the following:
 - (1) Current accreditation from JCAHO
 - (2) Current certificate from CARF
 - (3) Current certification from COA
 - c. Organization is a certified Medicaid provider, currently contracts (and is in good standing) with a Rhode Care HMO.

D.F. Approval Process

1. Department staff review and make a recommendation regarding certification to the designated Administrator. The recommendation may be for full certification or provisional certification. If provisional certification is recommended, conditions for full certification are identified.
1. An organization whose application is not approved for certification may appeal as described in Department Operating Procedure 100.0040, Complaints and Hearings. Review:
 - a. DCYF reviews Emergency Services (ES) and Mobile Response and Stabilization Services (MRSS) applications within 60 days. At its discretion,

Formatted: Not Highlight

Formatted: Not Highlight

Formatted: Indent: Left: 1.49", No bullets or numbering

b. DCYF shall request any additional documentation or clarification within fifteen (15) business days of receiving the application or any subsequent submission.

Formatted: List Paragraph, Numbered + Level: 3 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.49" + Indent at: 1.49"

Formatted: Not Highlight

2. **Determination:**

a. DCYF issues:

- (1) Full licensure as an ES Provider, indicating compliance with all ES standards.
- (2) Full licensure as an MRSS Provider, indicating compliance with both ES and MRSS standards, subject to Department approval based on state-wide service needs and demonstrated expertise in child-specific mobile response and stabilization services.
- (3) Denial: A written explanation shall be provided, along with notice of the applicant's right to request an administrative hearing pursuant to 210-RICR-10-05-2 (Appeals Process and Procedures for EOHHS Agencies and Programs).

Formatted: Indent: Left: 2", No bullets or numbering

6.5 LICENSING ACTIONS

A. The Department may deny, suspend or revoke a license for an Emergency Services (ES) or Mobile Response and Stabilization Services (MRSS) provider, or curtail specific activities, if the conditions specified in this section are met.

1. The provider fails to comply with these regulations or applicable state or federal laws.
2. The provider submits false or misleading information during the licensing process.
3. The provider's operations pose a health or safety risk to children or clients served.
4. The provider fails to address identified deficiencies within the timeframe specified by the Department.

B. The Department follows the procedure specified in this section for licensing actions.

1. The Department's Licensing Administrator or designee sends written notice to the provider's chief executive, detailing the violation, complaint, or circumstances warranting action and providing a deadline for response.
2. The notice offers the provider an opportunity to meet with the Licensing Administrator to demonstrate why the action should not be taken.
3. If violations persist after the meeting, the Department issues written notification of the licensing action within ten (10) business days, specifying:
 - a. Requirements for a corrective action plan.
 - b. Information about the provider's appeal rights.
4. The provider submits a corrective action plan within the timeframe specified by the Department, addressing the violation and providing:
 - a. Evidence of compliance, or
 - b. A plan to achieve compliance.
5. If the provider fails to comply with the corrective action plan or meet the deadline, the Department may:
 - a. Suspend the license; or
 - b. Revoke the license.

Formatted: Not Highlight

C. The Department may take emergency actions as specified in this section.

1. If the Director or designee determines that public health, safety, or welfare requires immediate action, the Department may summarily suspend a license or curtail activities, pending further proceedings, in accordance with R.I. Gen. Laws § 42-35-14(c).
2. Written notice of the emergency action and appeal rights is provided to the provider.

D. The Department may revoke or refuse to renew a license if the conditions specified in this section are met

1. The provider remains non-compliant with these regulations.
2. The provider fails to submit required documentation.

3. Continued operation poses an imminent danger to the health, safety, or welfare of clients.
4. The provider fails to correct deficiencies within the timeframe specified in the notice of non-compliance.

E. Providers must comply with requirements for voluntary surrender or closure as specified in this section.

1. Providers must notify the Department at least ninety (90) days before closing or changing ownership.
2. Upon closure, the license must be returned to the Department
3. Providers ensure continuity of services for clients for up to:
 - a. Ninety (90) days, or
 - b. Until alternative arrangements are made.
4. Providers shall inform the Department of any intention to discontinue participation as a licensed ES or MRSS provider. This includes planned agency closure or discontinuation of ES or MRSS services.
5. Upon providing notice to the Department of the decision to close or discontinue providing ES or MRSS services (referred to as the "Notice of Service Termination"), the provider shall continue to provide such services for up to ninety (90) days or until the Department approves an earlier transition date, whichever is sooner. This ensures continuity of care for clients.
6. In the case of a planned agency closure or service discontinuation, within forty-five (45) days of the Notice of Service Termination, the provider shall develop and submit a written transition plan to the Department.
7. The transition plan must ensure the orderly transfer of all clients receiving services. This includes coordination with other providers, warm handoffs, and linkage to appropriate ongoing behavioral health or community supports.
8. The Department shall review and approve the transition plan prior to its implementation.
9. Clients and their families or guardians shall receive written notice of the provider's termination of services. This notice must include details of the
