Regulatory Analysis Summary and Supporting Documentation:
The Department is proposing to remove the email address listed in §37.12.4 (B). The email address would be replaced with language that states that reports and other information be submitted to the Office of Air Resources. This change would allow documentation to be submitted in any manner including mail carrier, email, or any other form of delivery to the Office of Air Resources.

The proposed revisions do not impose any new requirements on regulated entities including any small businesses or any city or town, therefore there is no significant adverse economic impact.
