Comment on proposed rules regarding Dockside Sales Endorsement/Direct Sales Dealer License

For people with Direct Sales Dealer License, allow them to submit electronic landings reports for Lobster and Crabs only on a quarterly basis as opposed to bi-weekly as required with allowed finfish species.

Rationale: For a lobster/crab sales, the idea is to reduce the burden of more frequent electronic reporting and because lobster and crab are not a quota based managed species which would require more timely reporting.

Thank you
Al Eagles
