

RULES AND REGULATIONS
RELATED TO THE
MEDICAL MARIJUANA PROGRAM
(R21-28.6-MMP)

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

Department of Health

March 2006 (E)

As amended:
July 2006 (E)
August 2006

INTRODUCTION

These rules and regulations are promulgated pursuant to the authority conferred under section 21-28.6-5 of the General Laws of Rhode Island of, as amended, and are established for the purpose of adopting standards for the implementation of a medical marijuana program in Rhode Island.

The General Assembly finds and declares that (1) Modern medical research has discovered beneficial uses for marijuana in treating or alleviating pain, nausea and other symptoms associated with certain debilitating medical conditions, as found by the National Academy of Sciences' Institute of Medicine in March 1999. (2) According to the U.S. Sentencing Commission and the Federal Bureau of Investigation, ninety-nine (99) out of every one hundred (100) marijuana arrests in the United States are made under state law, rather than under federal law. Consequently, changing state law will have the practical effect of protecting from arrest the vast majority of seriously ill people who have a medical need to use marijuana. (3) Although federal law currently prohibits any use of marijuana, the laws of Alaska, California, Colorado, Hawaii, Maine, Montana, Nevada, Oregon, Vermont, and Washington permit the medical use and cultivation of marijuana. Rhode Island joins in this effort for the health and welfare of its citizens. (4) States are not required to enforce federal law or prosecute people for engaging in activities prohibited by federal law. Therefore, compliance with the Act does not put the state of Rhode Island in violation of federal law. (5) State law should make a distinction between the medical and non-medical use of marijuana. Hence, the purpose of the Act is to protect patients with debilitating medical conditions, and their physicians and primary caregivers, from arrest and prosecution, criminal and other penalties, and property forfeiture if such patients engage in

the medical use of marijuana. (6) The general assembly enacts the Act pursuant to its police power to enact legislation for the protection of the health of its citizens, as reserved to the state in the Tenth Amendment of the United States Constitution.

In accordance with the provisions of section 42-35-3(c) of the General Laws of Rhode Island, as amended, in the development of the regulations, consideration was to: (1) alternative approaches to the regulations; and (2) duplication or overlap with other state regulations. Based on the available information, no known alternative approach, duplication or overlap was identified. The health, safety and welfare of the public overrides any economic impact which may be incurred from these regulations.

These amended rules and regulations shall supersede all previous rules and regulations pertaining to a medical marijuana program promulgated by the Rhode Island Department of Health and filed with the Secretary of State.
